

TechCorp offers flexible pricing options to accommodate businesses of all sizes. Our AI consulting services start at \$200 per hour for junior consultants and \$500 per hour for senior AI architects.

Custom model development projects are priced based on complexity and timeline. Small projects typically range from \$10,000 to \$50,000, while enterprise-level solutions can range from \$100,000 to \$500,000. We provide detailed project estimates after our initial assessment.

Our AI Platform subscription starts at \$1,000 per month for the basic tier, which includes up to 10 models and 100,000 predictions per month. The professional tier is \$5,000 per month and includes unlimited models and up to 1 million predictions. Enterprise pricing is available for higher volumes.

Training workshops are priced at \$2,000 per day for up to 20 participants. Virtual workshops are available at a 20% discount. We offer bulk discounts for multiple workshop bookings.

All pricing includes initial setup and basic support. Premium support packages are available starting at \$500 per month.
